Bull & Select Female Sale

ON THE FARM - FORESTBURG, AB - 1:00 PM
All bulls will be SEMEN TESTED and vet inspected.

SALE DAY WEIGHTS and SCROTAL MEASUREMENTS will be provided sale day.

Calving Ease Legend

Calving Ease is often related to birth weight of a bull. This is partly true but there are other factors that influence calving ease. The dam and her management are at least 50% of calving ease. Also, the consistency of the birth weights of the sire and dam should be considered. Nutrition, gestation and environment all influence birth weight. We have rated each bull in the sale based on the information we have.

*** Should produce minimal problems when bred to moderate size first calf heifers

** Recommend for second calvers or smaller framed cows 1100 lbs to 1300 lbs

* Recommend for mature cows 1400 lbs plus

Welcome

On behalf of everyone here at Ter-Ron, we would like to invite you to join us Thursday, March 21, for our 14th annual Bull and Select Female Sale.

You will notice that we are on our own this year and would like to thank Bill & Tracy Dietrich and their family for being such good sale partners in our previous sales. We wish them the best of luck in their new venture.

We would like to sincerely thank our loyal customers, friends and neighbours for their continued support and trust in our program. Your interest is something we are very grateful for and we do not take it for granted. We work tirelessly to bring you a product that is suitable for the commercial cattleman and seed stock producer. Our focus has remained the same over the past years, to continually improve our product and genetics and to produce sound, easy fleshing, functional cattle that will have predictability influence on your breeding program.

We have a strong offering of bulls and heifers again this year. We are very proud of the consistency throughout the sale offering and we are confident they will meet your approval. The bulls will have a complete semen evaluation and the females are palpated before the sale. You can buy with confidence as we stand behind these cattle 100%.

We invite you to stop in anytime between now and March 21st to look over the bulls and heifers, or give Terry or Rob a call anytime to talk about the offering. If you cannot make the sale for some reason, we once again will be working with the Bohrson Marketing crew. They are familiar with the cattle, so we encourage you to call them if you would like. They are very professional so you can feel confident in their opinion. We also have Mark Shologan of DLMS once again if you prefer to bid online. Feel free to call Mark prior to the sale as well.

Thanks again to all that have supported our program, we really appreciate all of you! So plan on joining us on Thursday, March 21, 2019, here at the farm at Forestburg for a hot beef lunch and refreshments before the sale. Also plan to stay for hospitality after the sale with visiting, refreshments, and a post sale lunch.

Sincerely,

Terry & Sharon Adams
Rob, Maureen, Kasey & Kasey Adams

• Brandy 48F is sired by our calving ease specialist Reverence 198C
• Fancy made with lots of presence and eye appeal
• Moderate framed and complete out of a first calf Parker daughter with a gorgeous udder
Lauren 68F started out small, but has grown into a real complete, deep sided heifer with some stoutness and lots of femininity.

The Lauryn’s are known to be super sound footed, great uddered females around here, and they can really produce.

Rachel 72F is a sale feature and for good reason...she is hard to pick apart.

Modest framed and exhibits lots of style, depth, rib shape and femininity.

She really puts it all together and would be a good one for a junior to take to town.

Out of another good Parker first calver.

Heather 73F has cow written all over her.

Dark cherry red in colour, style to burn, stoutness, abundant eye appeal and hard to find a hole in.

Juggernaut did a tremendous job on both sexes, and we feel his daughters are going to be stellar. Future is bright for this young heifer… don’t miss out.
